Water Quality Issues
Reported on
Tuesday, September 4, 2018

Dear Camden-Wyoming Sewer & Water customer,

Date: **TUESDAY, September 4, 2018**

Time Period: **Beginning approximately 10:00 am**

This morning the CWSWA was informed that a flow test was completed on the fire suppression system at the Grotto Pizza located on Rt 13, Camden DE.

This type of flow testing may contribute to discoloration of water this morning.

We do apologize for the inconvenience that this has caused. When we are informed in advance of this type of testing taking place, we can notify the public ahead of time and prepare the system to try and minimize instances of brown water.

You may experience brown water into the evening from this testing taking place.

Please note that we continue to monitor our water system. We maintain appropriate chlorine levels as required by the state and samples are pulled from our system and submitted to the state on a monthly basis as required by the Office of Drinking Water.

If you should have any questions please do not hesitate to contact our office at 302-697-6372.

Respectfully,

Camden-Wyoming Sewer & Water Authority
