Fire Hydrant Awareness

Fire hydrants play a key role in firefighting.

Having an obstacle, such as a car parked in front of a hydrant, can cause delays for our fire personnel. Damage to your car may happen if a fire emergency occurs while you're parked in front of a fire hydrant.

Title 21, Chapter 41 of the Delaware code states, "No person shall stop, stand or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic-control device, including all state-owned and/or state leased property; in any of the following places... within 15 feet of a fire hydrant."

(www.delcode.delaware.gov/title21/c041/sc10/index.shtml).

Please be mindful of where you park, and keep the fire hydrants clear for emergency personnel and vehicles.

American Heart Month ❤️❤️

It's February—American Heart Month—a time when the nation spotlights heart disease, the No. 1 killer of Americans.

President Lyndon B. Johnson, among the millions of people in the country who had heart attacks, issued the first proclamation in 1964. Since then, U.S. presidents have annually declared February as American Heart Month.

The first Friday of American Heart Month, Feb. 4, is also National Wear Red Day as part of the American Heart Association's Go Red for Women initiative. Coast to coast, landmarks, news anchors, and neighborhoods go red to raise support and awareness for the fight against heart disease. For more information on the event, visit goredforwomen.org.

Another way to observe American Heart Month is by following heart healthy lifestyle tips, such as: (1) Being more physically active; (2) Maintaining a healthy weight; (3) Eating a nutritious diet; (4) Quitting smoking; (5) Reducing your stress; and (6) Getting enough quality sleep.
